

ENDS AND TRENDS WITH KIM AND KAREN

Karen's Home Trend: Having kids changes your life – and really makes your home seem like it's bursting at the seams! Here are some storage solutions that let you have your stuff and keep it, too.

Garage: Try shelving systems, hooks and overhead storage. Overhead storage helps keep boxes and stuff off the floor. It's a real space-saver! Just take a look at the ceiling in your garage and think of all the possibilities.

Home: Utilize tall shelving systems to take make the most of your vertical space. Try bins and hooks to keep things organized and clutter-free. Under-the-bed storage boxes are another way to conceal your things. Some benches, ottomans and coffee tables can be hidden storage bins. These are practical and useful pieces of furniture when they're multi-purpose!

Closet: Make the most of your closet space by installing even more shelves. Try over-the-door hooks to hang clothes, bags or jewelry. Invest in space-saver, vacuum-sealed bags to store winter clothes or bulky bed sheets and comforters. The bags compress the air out and allow for more storage than normal.
